

LITTER MAGIC

Litter Magic is a specialized product designed to improve the quality and management of poultry litter.

Overview

Litter Magic has been formulated to address common challenges faced during the grow-out phase, resulting in a healthier environment for birds and improved performance metrics.

Benefits

Special Moisture Control: Litter Magic effectively keeps litter drier during the grow-out period, which is crucial for maintaining a healthy living environment for poultry and reducing the risk of diseases.

Reduced Mortality Rates: Feedback indicates that the use of Litter Magic contributes to lower mortality rates among birds, promoting overall flock health and productivity.

Improved Weight Gain: Users have reported enhanced weight gain per bird, indicating that Litter Magic not only supports litter quality but also positively impacts poultry growth performance.

Application Rate

Recommended Rate: Apply 100 lbs of Litter Magic per 30,000 square feet of litter area.

Tilling for Best Results: For optimal effectiveness, it is recommended to till Litter Magic into the litter, ensuring even distribution and maximum absorption of moisture.

Conclusion

Litter Magic offers poultry producers a reliable solution for managing litter effectively. By keeping litter drier, reducing mortality, and promoting weight gain, this product enhances the overall productivity and welfare of poultry operations. Regular application at the recommended rate, along with proper tilling practices, will yield the best results in improving litter quality and bird performance.
